

Preface

The Czech Statistical Office processes the balance of population in municipalities based on the results of the latest Population Census and the statistical counts of births, deaths and migrants. These territorial changes were executed in 2019:

Relocation of part of municipality as of 1 October 2019:

Hubálov in the district Jičín, relocated from Tuř to Jičín

Relocation of part of municipality as of 21 June 2019:

Kunov in the district Bruntál, relocated from Bruntál to Nové Heřminovy

All four Military Training Areas without inhabitants are also listed in the publication.

It is important to mention that published numbers, based on the population balance of the CZSO, differ from the evidence of municipal authorities, administrated according to the Act No. 133/2000 Sb.

All data refer to the resident population of the Czech Republic, irrespective of their citizenship. The figures also include foreigners with visa for stay over 90 days, foreigners with asylum status, European Union nationals with temporary residence in the territory of the Czech Republic, and third-country nationals with a long-term residence permit.
