

Preface

The Demographic Yearbook of Administrative territories of municipalities with authorized municipal office complements the so far published and yearly updated publications – demographic yearbooks of the Czech Republic, of the NUTS3 regions, of administrative territories of municipalities with extended powers and of towns.

The administrative territories of municipalities with authorized municipal office were set by Decree of the Ministry of the Interior No. 388/2002 Coll. of 13 June 2002, taking effect on 1st January 2003.

The Publication is in this year printed for the first time (code 4037-09) in CD-ROM version. The Publication is available on CZSO's website www.czso.cz too.

The Demographic Yearbook of Administrative Districts of Municipalities with authorized municipal office gives an overall statistical overview of selected demographic indicators for these territorial units for the years 1995-2008.

We believe that the Yearbook will meet the interest of the users and that it will become a sought-after source of information for various activities.
