[1] Since 1 January 2006, dwelling started is a dwelling for which building permit has been issued, since 1 January 2007 dwelling started is a dwelling for which building permit or building notification has been issued.
Before 2006, dwelling started was a dwelling whose construction was started according to the entry in the building logbook.

[2] End of the reference period

[3] No indices can be provided because data on new dwellings obtained by adapting non-residential rooms have been measured since 1996 only

[4] Since 1 January 2006, the number of dwellings under construction is calculated as follows: dwellings under construction at the end of reference period = dwellings under construction at the end of previous period + dwellings started in reference period - dwellings completed in reference period

[5] Preliminary
