## INTRODUCTORY WORD

**Dear Users,**

This first summary of statistical data for the Capital City of Prague\* for 2023 is intended to be used by the widest possible public

Data published in this booklet were obtained thanks to your willingness to answer questions of the Czech Statistical Office's surveys carried out in households, enterprises, or state institutions. Thank you for that. Data in an aggregated form are used by other users, yet also by those who were their originators, i.e. private enterprises, state institutions, and the public.

This year, the brochure again contains infographics in the middle of the publication.

In 2024, Prague's metro celebrates 50 years since it was first put into operation. We dedicated one page in our publication to this anniversary.

In June 2024, a new web of the Czech Statistical Office has been launched.

Part of the web site directly contains data about Prague, its administrative districts and city sections:
