

**Table 5. Types of hazardous waste management: 1999-2002**

(Thousand tonnes)

Indicator	1999	2000	2001	2002 <sup>4)</sup>
<b>Management, total<sup>5)</sup></b>	2 406	2 809	2 818	1 514
<i>Adjusted according to the List of Waste (Decree No. 381/2001 Coll., of the Ministry of the Environment of CR), total</i>	<i>1 841</i>	<i>2 091</i>	<i>2 138</i>	<i>1 514</i>
Physical and chemical processes	1 092	559	608	184
Biological processes	140	245	276	115
Incineration <sup>6)</sup>	42	43	53	61
Landfill and other depositing	147	299	394	135
Other types of disposal	.	.	.	6
Use as secondary raw material	318	924	897	286 <sup>8)</sup>
Storing	100	80	148	213
Exports	2	1	5	4
Unspecified <sup>7)</sup>	565	658	437	510

<sup>4)</sup> Pursuant to the new Waste Act which classifies less kinds of waste to Category H than the previous legislation.

<sup>5)</sup> All waste handled in the reference year, including waste taken from stores.

<sup>6)</sup> Including incineration with/without use of energy.

<sup>7)</sup> Includes amounts of waste handed over by enterprises to units outside the measured population for handling.

<sup>8)</sup> Includes types of recovery according to Annex No. 3 to Act No. 185/2001 Coll., except for incineration with use of energy.
