1st - 3rd quarter						
1) The coloulation of the ind						

¹⁾ The calculation of the indicators at constant prices of 2000 was made by chaining year-on-year indices (always based on the previous year's average). This method is recommended by Eurostat and establishes links between quarterly and annual indicators. It does not permit to make links between individual components and the total, though.

 $^{^{\}rm 2)}$ CPPY - Corresponding period of previous year
