New Developments in the System of National Accounts

BOOK REVIEW

376 Stanislava Hronová

More Than Just a Data Guide to the Historical Development of the Press, Film, and Radio in the Czech Lands – Book Review

About Statistika

The journal of Statistika has been published by the Czech Statistical Office since 1964. Its aim is to create a platform enabling national statistical and research institutions to present the progress and results of complex analyses in the economic, environmental, and social spheres. Its mission is to promote the official statistics as a tool supporting the decision making at the level of international organizations, central and local authorities, as well as businesses. We contribute to the world debate and efforts in strengthening the bridge between theory and practice of the official statistics.

Statistika: Statistics and Economy Journal is professional double-blind peer reviewed open access journal included e.g. in the *Web of Science Emerging Sources Citation Index* (since 2016) of the **Web of Science Core Collection** database (**Impact Factor**), in the international citation database of peer-reviewed literature **Scopus** (since 2015), and in others. Since 2011, Statistika has been published quarterly in English only.

Publisher

The Czech Statistical Office is an official national statistical institution of the Czech Republic. The Office's main goal, as the coordinator of the State Statistical Service, consists in the acquisition of data and the subsequent production of statistical information on social, economic, demographic, and environmental development of the state. Based on the data acquired, the Czech Statistical Office produces a reliable and consistent image of the current society and its developments satisfying various needs of potential users.
