According to MLSA method	2004	.	.	.	.	.	.	9.2	9.3	9.1	8.9	8.9		9.1

1) 2001-2002 data are final by CZSO; 2003 data are final, referring to 27 August 2004 closing date;

January-September 2004 data are updated, referring to 29 November 2004 closing date; October 2004 data are preliminary, referring to 29 November 2004 closing date. 2) Based on sources of Ministry of Labour and Social Affairs (MLSA).

3) From 1 July 2004 MLSA made a methodological change in calculation of unemployment rates - some groups of persons are included differently (numerator contains number of 'available' unemployed; denominator contains labour force, i.e. sum of number of employed persons from LFSS and number of working foreigners registered by Labour Office or with valid permit for work or with business licence plus number of available unemployed (all moving average).
