

# Recent Publications and Events

## *New Publications of the Czech Statistical Office*

---

*Statistical Yearbook of the Czech Republic 2011*. Prague: Czech Statistical Office, 2011.

*Population Development of Prague from 2001 to 2010*. Prague: Czech Statistical Office, 2011.

## *Other Selected Publications*

---

HŮLOVÁ, M., JAROŠOVÁ, E. *Statistické metody v managementu kvality, environmentu a bezpečnosti* (Statistical Methods in the Management of Quality, the Environment and Safety). Prague: University of Economics, 2011.

KRKOŠKOVÁ, Š., RÁČKOVÁ, A., ZOUHAR, J. *Základy ekonometrie v příkladech* (Principles of Econometrics in Examples). Prague: University of Economics, 2011.

OECD, WTO. *Aid for Trade at a Glance 2011: Showing Results*. Paris: OECD, WTO, 2011.

## *Information*

---

The first preliminary results of the “project of a decade” — 2011 *Population and Housing Census (SLDB 2011)* in the Czech Republic were published **on 15 December 2011** at a press conference attended by the President of the Czech Statistical Office Iva Ritschelová and the Vice-President of the Czech Statistical Office Stanislav Drápal.

Information and presentation from the conference can be found at: [www.scitani.cz](http://www.scitani.cz).

## *Conferences*

---

The *workshop Analytical Methods in Statistics (AMISTAT)* was held in honour of Professor Abram Kagan in Prague, the Czech Republic **from 28 to 30 October 2011**. Organizing institutes were the Center of Jaroslav Hájek for Theoretical and Applied Statistics and the Department of Probability and Mathematical Statistics of the Charles University in Prague.

The agenda, list of participants and speakers, and other information on the event are available at: <http://amistat2011.karlin.mff.cuni.cz/index.htm>.

**The 20<sup>th</sup> International Input-Output Conference** will be held in Bratislava, the Slovak Republic, **from 26 to 29 June 2012**. The goal of the conference is to promote and stimulate the worldwide exchange of ideas among economists and government officials, policy makers, engineers, national accountants and managers with interests in input-output analysis and related methods.

More information is available at: <http://www.iioa.org/conferences-20th.html>.

**The 27<sup>th</sup> annual International Workshop on Statistical Modelling (IWSM'27)** will be held at the premises of the University of Economics, Prague **from 16 to 20 July 2012 in Prague**, the Czech Republic. The workshop is organised as the major activity of the Statistical Modelling Society, which was founded with the purpose of promoting and encouraging statistical modelling in its widest sense. With the workshop, the organisers try to address people working in academia but also individuals outside research, who solve applied problems based on data. Having many returning participants they believe that the workshops are friendly and supportive, and they particularly encourage students to attend and to present, giving them the opportunity to speak to many of the worlds experts on statistical modelling.

More information is available at: <http://iws2012.karlin.mff.cuni.cz>.

**The 31<sup>st</sup> CIRET Conference** will be held in Vienna, Austria **from 5 to 8 September 2012**. The overall aim of CIRET conferences is to encourage and improve communication, exchange and co-operation between academics and practitioners, who conduct economic surveys, analyse survey data and develop or make use of cyclical indicators. CIRET, the Centre for International Research on Economic Tendency Surveys, is also a forum for discussion and application of new methodological developments and their results.

More information is available at: [https://www.ciret.org/files/CfP\\_Vienna\\_2012\\_def.pdf](https://www.ciret.org/files/CfP_Vienna_2012_def.pdf).

# CONTENTS

## OF THE CURRENT VOL. 48 (2011) OF *STATISTIKA, ECONOMY AND STATISTICS JOURNAL*

### *Contents of the Issue No. 1 / 2011*
