

Preface

The Czech Statistical Office processes the balance of population in municipalities based on the results of Population Census 2001 and the consecutive statistical accounts on births, deaths and migration. These territorial changes were executed in 2010:

Constitution of independent municipality as of 1 January 2011:

- Libhošť in the district Nový Jičín

It is important to mention that published numbers, based on the balance of population of the CZSO, differ from the evidence of municipal authorities, administrated according to the Act No. 133/2000 Coll.

We note that published numbers are last figures in ten-year intercensal period, based on the results of Population Census 2001 and they are not recounted on the results of Population Census 2011.

Prague, 29 April 2011
