Preface

A SURVEY ON INFORMATION AND COMMUNICATION TECHNOLOGIES IN PUBLIC ADMINISTRATION

Methodology

Results

1. Information and communication technologies in public administration

1.1. Personal computer

1.2. Local area network

1.3. Internet access

1.3.1. Broadband connection

2. Human resources

2.1. Number of personal computers and personal computers connected to the internet per 100 employees

2.2. Number of employees with access to selected technologies at work

2.3. Number of experts on IC technologies

3. Citizens' access to information and communication technologies made available to the public

3.1. Public internet access points

3.2. Information kiosks

4. Web sites of public administration

4.1. Web sites

4.2. On-line services available on web sites

5. Internet usage for purchasing goods or services

5.1. E-procurement

5.2. Central purchasing of goods or services

Tables

Table 1: Target and sample population

Table 2: Target and sample population - municipalities with 500 or more citizens, by region

Table 3: Target and sample population - municipalities with less than 500 citizens, by region

Table 4: Number of public authorities with at least one PC, LAN and internet access, by form of organization (31.12.2006)

Table 5: Number of municipalities with 500 or more citizens with at least one PC, LAN and internet access, by region (31.12.2006) 66

Table 6: Number of municipalities with less than 500 citizens with at least one PC, LAN and internet access, by region (31.12.2006)

Table 7A: Number of municipalities with 500 or more citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 1

Table 7B: Number of municipalities with 500 or more citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 2

Table 7C: Number of municipalities with 500 or more citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 3

Table 7D: Number of municipalities with 500 or more citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 4

Table 7E: Number of municipalities with 500 or more citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 5

Table 8A: Number of municipalities with less than 500 citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 1

Table 8B: Number of municipalities with less than 500 citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 2

Table 8C: Number of municipalities with less than 500 citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 3

- Table 8D: Number of municipalities with less than 500 citizens with at least one PC, LAN and internet access, by district (31.12.2006) – part 4
- Table 9: Number of personal computers used by public authorities, by legal form of organization (31.12.2006)
- Table 10: Number of employees with access to selected technologies at work, by legal form of organization (31.12.2006)
- Table 11: Number of employees – experts on IC technologies, by legal form of organization (31.12.2006)
- Table 12: Number of personal computers and personal computers connected to the internet per 100 employees, by legal form of organization (31.12.2006)
- Table 13: Number of organizations applying policy of limited internet access on their employees (31.12.2006)
- Table 14: Number of public authorities with Public Internet Access Point, by legal form of organization (31.12.2006)
- Table 15: Number of public authorities providing citizens with information kiosk, by legal form of organization (31.12.2006)
- Table 16: Number of organizations carrying electronic registry using electronic signature (in year 2006)
- Table 17: Number of public authorities which used the page www.centralni-adresa.cz for public procurement, by legal form of organization (in year 2006)
- Table 18: Number of public authorities which used computer system for central purchasing of goods in 2006, by legal form of organization
- Table 19: Usage of information and communication technologies by municipalities with 500 or more citizens, by region (31.12.2006)
- Table 20: Number of public authorities with web site, by legal form of organization (31.12.2006)
- Table 21: Number of municipalities with their own web site by size of municipality and by region (31.12.2006)
- Table 22A: Number of municipalities with their own web site by size of municipality and by district (31.12.2006) – part 1
- Table 22B: Number of municipalities with their own web site by size of municipality and by district (31.12.2006) – part 2
- Table 22C: Number of municipalities with their own web site by size of municipality and by district (31.12.2006) – part 3
- Table 23: Number of public authorities by sophistication of on-line services, by legal form of organization (31.12.2006)
- Table 24: Number of municipalities with 500 or more citizens by sophistication of on-line services, by region (31.12.2006)

Cartograms

- Cartogram 1: Municipalities with 500 or more citizens with broadband connection, by region (%), (31.12.2006)
- Cartogram 2: Municipalities with less than 500 citizens with broadband connection, by region (%), (31.12.2006)
- Cartogram 3: Municipalities with 500 or more citizens with web site, by region (%), (31.12.2006)
- Cartogram 4: Municipalities with less than 500 citizens with web site, by region (%), (31.12.2006)
- Cartogram 5: Municipalities with 500 or more citizens with broadband connection, by district (%), (31.12.2006)
- Cartogram 6: Municipalities with less than 500 citizens with broadband connection, by district (%), (31.12.2006)
- Cartogram 7: Municipalities with 500 or more citizens with web site, by district (%), (31.12.2006)
- Cartogram 8: Municipalities with less than 500 citizens with web site, by district (%), (31.12.2006)

B WEB SURVEY

Methodology

Results

- 1. Information available on public administration web sites**
- 2. On-line services available on public administration web sites**
 - 2.1. Basic on-line services available on public administration web sites
- 3. Future development of public administration web sites**

Tables

Table 25: Information and on-line services available on public administration web sites, 2007

C INTERNET ACTIVITIES RELATED TO PUBLIC ADMINISTRATION

Methodology

Results

- 1. Internet activities related to public administration - by individuals**
 - 1.1. Internet usage by individuals
 - 1.2. Individuals using internet in relation to public administration
- 2. Internet activities related to public administration – by enterprises**
 - 2.1. Internet usage by enterprises
 - 2.2. Enterprises using internet in relation to public administration
- 3. International comparison**

Tables

Table 26: Interest of internet users in e-government, 2007

Table 27: Internet activities related to public administration carried out in the last 3 months, 2007

Table 28: Enterprises using the internet for interaction with public authorities, January 2007

Table 29: Enterprises using the internet for obtaining information from public authorities web sites, January 2007

Table 30: Enterprises using the internet for obtaining forms from public authorities web sites, January 2007

Table 31: Enterprises using the internet for sending filled in forms to public authorities, January 2007
