Tables and numbers

Articles for the review process may contain tables placed directly in the text.

For final graphical typesetting, all tables shall also be supplied separately in an editable MS Excel format (*.xls, *.xlsx). Indicate the position of each table in the text by placing “insert Table 1 about here”.

Number tables in the order of appearance Table 1, Table 2, etc. Each table should be titled (e.g. **Table 1** Self-explanatory title). Refer to tables using their numbers (e.g. see Table 1). Tables in the Annex/Appendix are numbered separately with capital A (e.g. Table A1).

Try to break one large table into several smaller tables, whenever possible.

Separate thousands with a *space* (e.g. 1 528 000) and decimal points with a *dot* (e.g. 1.0). Specify the data sources below all tables.

Figures and pictures/maps

A figure is any graphical object other than a table. Articles for the review process may contain figures (pictures, maps) placed directly in the text.

For final graphical typesetting, all figures shall also be supplied separately. Graphs shall be supplied in an editable MS Excel format (*.xls, *.xlsx), including the underlying data. Indicate the position of each figure in the text by placing “insert Figure 1 about here”.

Number figures in order of their appearance in the text: Figure 1, Figure 2, etc. Each figure should be titled (e.g. **Figure 1** Self-explanatory title). Refer to figures using their numbers (e.g. see Figure 1). Figures in the Annex/Appendix are numbered separately with capital A (e.g. Figure A1).

Figures should be prepared for black-and-white print. Pictures and other raster graphic objects shall have a resolution of at least 250 DPI. Please provide cartograms and other suitable graphic objects in vector format whenever possible. Do not supply low-resolution files optimized for screen use. Specify the data sources below all figures.

Formulas

Formulas should be numbered and provided in an editable form using, for example, the Microsoft Word Equation Editor or MathType. Formulas submitted as images (*.jpg, *.png, etc.) are not accepted. Formulas should use the same text format (Times 12) as the main text. Separate thousands with a space (e.g. 1 528 000) and decimal points with a dot (e.g. 1.0).

Country names

We recommend using the short name “Czechia” wherever the formal name “Czech Republic” is not required.
